

T75 TRUCK MOUNTED CONCRETE PUMP

The T75 truck mounted concrete pump has been specifically engineered to increase your productivity and most importantly, your profitability to ensure Jacon is the right partner for you.

The T60 Series comes with an option of 3 different Jacon pumps, providing the client with a range of options to suit their needs. The spraymaster may be used as a shotcrete machine suitable for jobs such as earth stabilisation and retaining walls. The T60 and T75 range in output capacities to provide a variety of concrete pumping services such as footings, concrete slabs, blockfilling, footpaths and driveways.

Containing the superbly engineered “S” valve, the T60 truck mounted concrete pump is capable of handling extremely harsh mixes as well as low slump concrete. With an output ranging from 45m³/hr – 75m³/hr, these compact and robust units can be utilised for many applications within the civil industry.
