

S45 TRAILER MOUNTED CONCRETE PUMP

The S45 trailer mounted concrete pump has been specifically engineered to increase your productivity and most importantly, your profitability to ensure Jacon is the right partner for you.

The S45 trailer mounted concrete pump is a small to medium size pump. With an output of up to 45m³/hr, a vertical reach of 100 metres and a horizontal reach of up to 350 metres, this Jacon pump is capable of working in the most versatile jobsites.

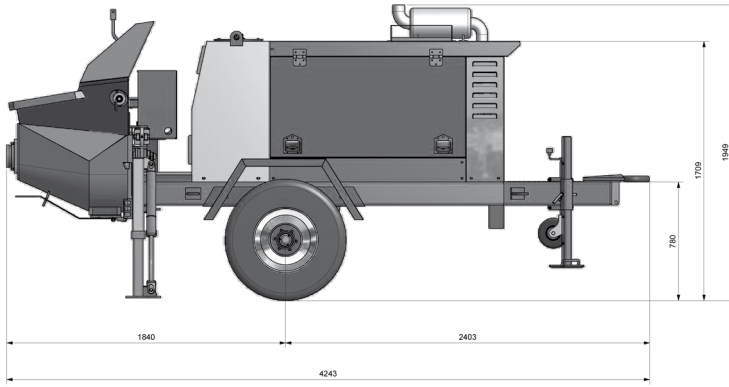

Containing the superbly engineered “S” valve, the S45 trailer mounted concrete pump is capable of handling extremely harsh mixes as well as low slump concrete. This compact and robust unit can be utilised for many applications within the civil mining industry such as footings, concrete slabs, blockfilling, footpaths and driveways.

The option to be set up as a shotcrete machine provides even greater versatility and therefore increased service applications such as earth stabilisation and retaining walls.
